- Large mirrors with bar on north wall of studio
- Internet
- Sound system
- Curtains

Natural Lighting:

There are two sources of natural light coming from above.

- 1) Large picture window on the upper West side of dance studio. To open and close see round knob on left side of studio door upon entering.
- 2) Six small skylights in the ceiling. To open and close, see light switch upon entering studio door on the right side.

Accordion Doors:

Can be opened to cement patio during warmer weather. Locks on the bottom and top of the doors must be unlocked to fully open.

Curtains:

To open or close, just pull curtains from one end. Excellent at blocking outdoor light and/or for privacy.

Shades for West facing upper window:

Upon entering studio doors on the left, there is a remote with a circle in the middle located on the wall. Hit the center circle to raise or lower shades.

Heat:

Upon entering studio doors on the left, there is a thermostat. Hit button until the figurine moves inside of the house. Set temperature. This set temperature will last 6-8 hours.

- You will see:
 1. HOT
 2. COLD
 3. RETURN
 4. BYPASS
- If pipes/water freezes in Dance studio, turn OFF 1, 2 & 3.
- Turn ON 4.

Sound System:

Upon entering studio, an iPad is located on the left wall. This enables you to control the sound system.

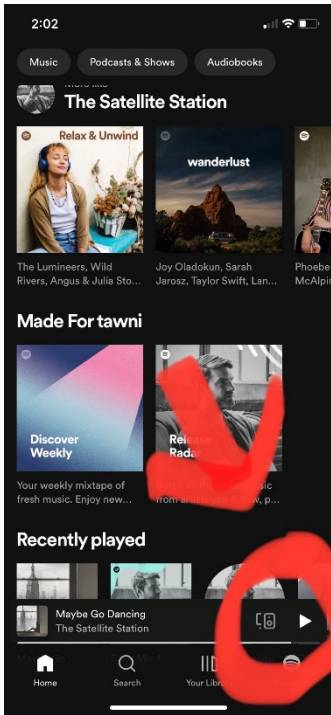

- Sound can be played in the gallery, dance studio or both at the same time. Ucross asks that you do not play music in the gallery as it is a public space with visitors coming to view current exhibitions.
- To pair your phone or laptop with Bluetooth, you must outside the dance studio and the closet closest to the doors (on the right), find a small black box. Hit the pair button and hold for a few seconds.

- Find channel DN200BR to connect.
- Popular streaming sites like Pandora, YouTube and Spotify can be accessed through the iPad by logging into your account. Hit bottom right icon to pair iPhone or iPad directly to sound system.
